INTRODUCTION

The Sunseeker 30 Metre Yacht CORAYSA is quite frankly one of our most exciting brokerage opportunities. Very rarely do Sunseeker 30 Metre Yacht's come up on the Brokerage Market and never before have we come across a 30 Metre Yacht in such stunning condition. From the moment we stepped on-board we knew this was an opportunity not to be missed and one that would make one potential purchaser extremely happy.

CORAYSA has been professionally maintained and never chartered and this really shows. Her satin black American walnut cabinetry is in stunning condition owing to her owner's meticulous attention to detail and recent refit.

CORAYSA turns heads before you even step on-board owing to her striking black hull and light grey superstructure ensure that she stands out from the crowd, whether in port or at anchor.

The open saloon boats a seamless transition between the dining area and saloon seating further enhancing the open plan feel to this particular vessel. Moving forward we find the VIP Cabin located on the starboard side of the main deck, forward of the main deck lobby entrance and day head.

The Master Cabin on CORAYSA is truly unique, with a large walkway through to the master cabin (boasting the owners walk in wardrobe) the spacious feel of this particular suite hits you the moment you step through the door. Featuring a mezzanine style split level design many argue that this cabin is in fact that Master rather than the VIP. We'll leave this for you to decide!

CORAYSA boats a large galley that allows the Yacht to operate with a full-time chef if required. Fitted with only the highest-level equipment from 6 custom made stainless steel fridge/freezers (can be changed at the flick of a switch) to her extra wide oven and 5 burner hob. This is a galley that even Gordon Ramsey would be proud of.

CORAYSA

SUNSEEKER YACHT – CORAYSA

Access to the Lower Deck is via a wide and comfortable staircase to the lower deck lobby. The Sunseeker 30 Metre Yacht was offered as a 4 or 5 cabin option. The 4-cabin option boasts the benefit of a full beam Master (or VIP Cabin!) Cabin with expansive glass hull windows, walk in wardrobe and spacious en-suite. The clever layout of this cabin ensures privacy due to the aft facing Queen Size Bed hidden behind a stylish smoked glass and walnut headboard. To fully understand and appreciate the layout we recommend you use our 360° Virtual Tour.

There are a further two cabins located off of the lower deck lower. A fixed Double en-suite cabin and a convertible twin cabin with sliding beds allowing the yacht to transform into 4 fully functioning en-suite cabins if required.

The flybridge on CORAYSA boasts two electric opening forward and aft facing canopies allowing the flybridge to bath fully in sunlight or hide out in the shade if required. There is a large fixed sunbathing area aft that can accommodate up to 8 guests comfortably as well as a U-Shaped dining area opposite her large bar.

CORAYSA is one of the highest specified Sunseeker 30 Metre Yachts, never before has there been such a well maintained, lightly used and one owner Sunseeker 30 Metre Yacht offered For Sale. An opportunity not to be missed and one that we are sure will not be on the market for long.
