## INTRODUCTION

### Presenting the stunning Pershing 70 "ZEGO"

Zego is fitted with 2 x 1623HP MTU 10V M94 2000 Engines, paired with Pershing's Iconic surface piercing props! This incredible combination takes Zego to speeds of upto 46 knots!..

Finished in an elegant and unique 'Pearl White', Zego is a true one of a kind in her class, with no other Pershing 70 built to the same specification! Zego left the factory in 2015, her experienced owners specified a no compromise 2 Guest Cabin layout, allowing for generous living space below deck.

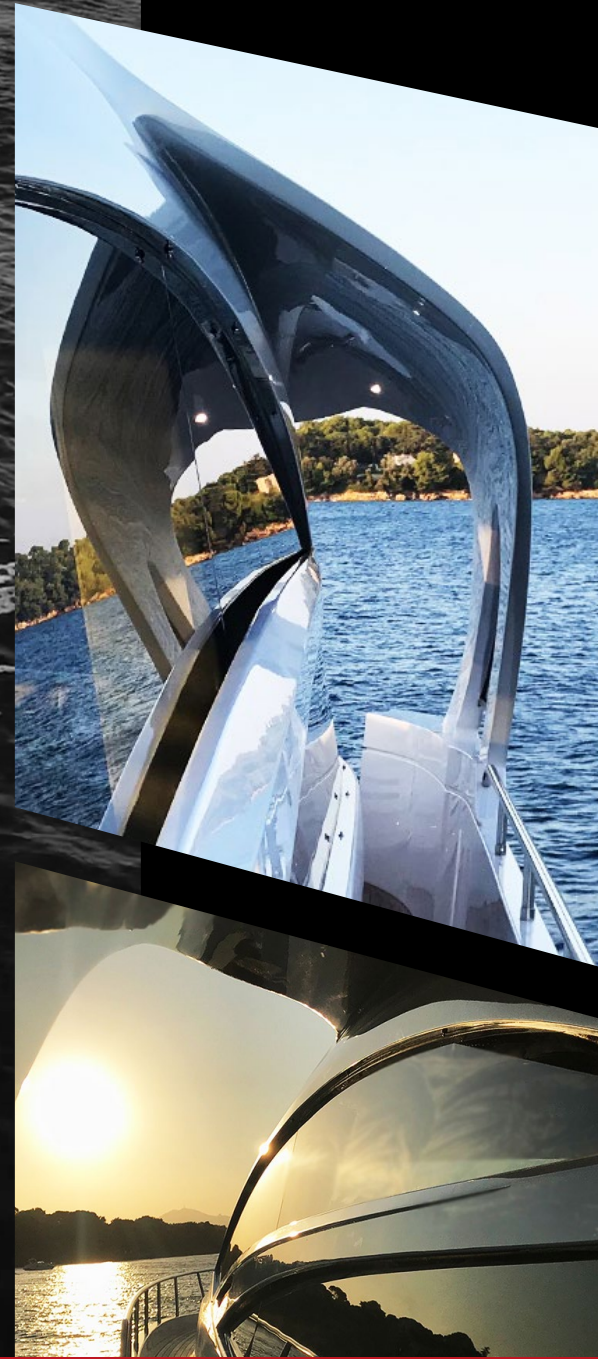

The open plan theme flows throughout the Yacht, a 'Rise & Fall' glass panel separates interior & exterior. With just the flick of a switch the two become one, creating a truly unique and versatile space. The airy & fresh Saloon is clean, contemporary and modern. It is immediately evident, Zego is a 'One-Owner' Yacht & has been maintained to the highest standard.

When stepping below into the lobby, a generous Galley can be found to the starboard side, a full-beam master suite lies aft, and a luxurious VIP cabin lies forward – Both cabins boast elegant en-suite bathrooms, finished with the finest Italian furnishings.

Zego is fitted with a revolutionary, state of the art energy storage solution, installed by industry leading engineers 'Olife' – The system allows for 9.5 hours of completely silent usage, no generators needed overnight or whilst at anchor.

Zego is truly priced to sell at a market beating €2,250,000 Tax Paid!..

MAIN DECK

LOWER DECK

ZEGO

An aerial, high-angle photograph of a sleek, modern speedboat, likely a Zego, moving across the water. The boat is dark-colored with a prominent white stripe along its side. The water is dark and textured with small waves. The overall image has a dark, moody aesthetic with a red horizontal bar at the top and bottom.
